THE DRAINLAYER HAS READ, UNDERSTANDS, AND AGREES TO THE FOLLOWING TERMS OF THIS PERMIT:

1. All work performed under this permit is to be done in accordance with the latest versions of the Town of Dedham Sewer Regulations and the Town of Dedham Design and Construction Standards, and shall conform to all applicable building and plumbing codes, and the Department of Public Works Street Opening Regulations if working in R.O.W.
2. Prior to excavation, the Drainlayer must call the Dedham-Westwood Water District at (781) 329-7090 to mark the water lines at the site. The Drainlayer must also call **DIG SAFE** for marking of other utilities. **DIG SAFE DOES NOT CALL THE DEDHAM-WESTWOOD WATER DISTRICT.**
3. The Drainlayer must at the time of inspection furnish a completed AS-BUILT, using the form provided, which shows the sewer work performed and a minimum of (3) swing ties to all applicable features: public sewer mainline connection, bends, cleanouts, shut off valve, pump chamber, and fernco connections.
4. The cost of said sewer connection, repair or extension and its connection to the Town sewer including; labor, materials, and any expense incurred necessary for the proper construction of said sewer is the responsibility of the owner.
5. All new sewer connections, repairs, or extensions, as well as any testing required, must be inspected by a representative of the Dedham Engineering Department prior to backfilling of any portion of the trench. Inspections must be arranged a minimum of (24) hours in advance by calling (781) 751-9350. Inspections will only be performed during published Engineering Department business hours.
6. The pipe must be bedded and covered to a minimum of 6" with ¾" processed crushed stone for the full width of the trench.
7. This permit is valid for (1) year from the date of approval.
8. The Drainlayer shall provide the following items as required below (check appropriate box(es)):
 - Design drawings and calculations performed by a Massachusetts Professional Engineer (required for all sewer connections, extensions, and low pressure sewers)
 - Sketch of proposed sewer repair, showing all bends and cleanouts (required for repairs)
 - Proof of DEP Permit approval (required for connections over 15,000 GPD and all sewer extensions)
 - Proof of MWRA Sewer Use Discharge Permit approval (required for all connections which will discharge industrial waste)
9. Special Conditions: _____ or;
 - See Attachment A
