

PUBLIC SAFETY BUILDING PROJECT

Weekly Project Updates and
7-Day Look-Ahead

**Here is a look-ahead at the construction work planned for the Public Safety Building,
from May 2, 2022 to May 6, 2022**

Project Overview:

Construction of a combined public safety building commenced in December 2020 on the site of the former Town Hall at 26 Bryant Street. The new building will house the staff and equipment of Fire, Police, and Dispatch departments. The new combined Public Safety Building will replace two older Town buildings: Police Station at 600 High Street (built in 1962) and the Fire Station at 436 Washington Street (built in 1930). The new building is scheduled to open in the Fall of 2022.

A [livestream video](#) of the construction is available on the Project website! Tune in from anywhere to watch the continued progress on the Combined Public Safety Building. While there, check out the updated Before-and-After photos of the progress onsite.

What to expect May 2, 2022 (Monday) through May 6, 2022 (Friday):

- The project site remains closed to the public.
- This week, crews will be installing a water quality structure on Washington Street that may cause temporary traffic delays or impacts in the immediate area. Please drive slowly and use extra caution.
- Installation of the piping for the fire protection system and sprinklers in the underground garage will continue this week.
- Eversource may be onsite this week to continue work to transfer wires and permanent power. Potential impacts to the area (traffic and pedestrian access) will be shared via the Town website and social media.
- While crews continue to install the rough duct work on the first floor, testing of the duct work on the second floor will begin.
- Along the north side of the building, crews will be installing the curtain wall and continue framing and glazing the windows.
- The anticipated delivery date of the elevator has been updated to mid to late May.
- Installation of the base and foundation for the cell tower is underway and will continue this week. Final permit to complete this work is pending.
- Expect periodic entrance and exit of large trucks at the project site entrance, located at the intersection of Washington Street and Bryant Street. **Please expect minor traffic delays at this intersection.**
- No additional traffic impacts (other than listed above) or pedestrian impacts are anticipated during this week.

Public Viewing Area:

If you want to stop by to check out the progress, stand by the picnic table outside the north entrance to Town Hall. This spot provides a great view into the project site and is outside of the project boundaries. Worth a visit!

Construction Hours:

- Crews will be onsite:
 - Monday through Friday: 7:00 AM to 5:00 PM

Project Team Contact Information:

- Immediate issues or concerns, please contact the Town Manager's Office at [781-751-9100](tel:781-751-9100).
- For general questions or concerns, please contact the project team at psb@dedham-ma.gov
- For more information about the Public Safety Building Project, please visit the project website at www.dedham-ma.gov/psb
- Download our [project team contact information flyer](#) on the project website.
