

NOTICE

Dear Robinwood Drive Resident –

On March 3, 2015 Algonquin Gas Transmission, LLC (“Algonquin”) received a Certificate of Public Convenience and Necessity from the Federal Energy Regulatory Commission (“FERC”) in Docket No. CP14-96-000 to build, own, operate and maintain a natural gas pipeline in Westwood, Dedham, and West Roxbury. The construction activities for the West Roxbury Lateral (“Project”) include the construction of 4.2 miles of 16-inch pipeline and 0.8 miles of 24-inch pipeline, a Metering and Regulating station and related facilities.

Construction of this project has started at several locations, including on Elm Street in Dedham, MA. There will be NO CONSTRUCTION on Robinwood Drive.

During construction there will not be a time when one outlet or the other from Robinwood Drive to Elm Street is not open. For a brief period of time, one access point will be closed to traffic during the day time, leaving the other approach to Elm Street available for ingress/egress at the opposite end of Robinwood Drive.

Should you have construction related questions, please call **Algonquin’s Landowner Hotline at (866) 871-0356**. A Right of Way Representative will respond to your call as soon as practicable, but in any event within 48 hours.

Again, there will be no construction on Robinwood Drive, and access to and from Elm Street will be maintained throughout pipeline construction.
